Cycles begin the date an Associate places the first order for themselves or a customer generating 100 personal sales volume points. This will remain their four-week rolling cycle unless the Associate calls to change the Autoship dates.

To remain active, Associates must place either a sales order generating 100 PSV points (for one Business Center) or 200 PSV points (for multiple Business Centers) every four weeks. Find the date the order was placed. Note the color of the cycle. To remain active, the next order must be placed in the next same-color cycle. **For example:** A new Associate sends in an application and a sales order to initially activate their 001 Business Center on September 18, 2007 (red cycle). The next activation order of at least 100 PSV points must be placed by Friday of the next red cycle (October 19, 2007).

Autoships are processed on four-week rolling cycles. For example: If an Autoship is placed and processed during the week of May 20, 2007 (yellow cycle), the next Autoship would be processed on June 17, 2007.

Off-cycle orders may be placed separately without changing the Autoship cycle. After meeting your minimum PSV points needed to keep your business centers active, volume associated with off-cycle orders should be placed to the right or left of your business centers in order to accumulate group volume (GSV) which is volume that Associates are paid on.
